DETAILED ACTION***Double Patenting***

1. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

2. Claims 16-19 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3 of U.S. Patent No. 6,618,550. Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between claims 16-19 of the present application and claims 1-3 of U.S. Patent No. 6,618,550 is that claims 1-3 of U.S. Patent No. 6,618,550 further recite entry number information of the additional audio information. However, it is noted that eliminating a part is obvious to one of ordinary skill in the art. See Elimination of an element and its function---*In re Karlson*, 153 USPQ 184 (CCPA 1963). Therefore, it would have been obvious to one of ordinary skill in the art to modify

Art Unit: 2616

claims 1-3 of U.S. Patent No. 6,618,550 by eliminating entry information from claims 1-3 of U.S. Patent No. 6,618,550 to produce claims 16-19 of the present application.

3. Claims 16-19 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over Claims 16-19 of copending application 10/802,881.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the difference between claims 16-19 of the present application and Claims 16-19 of copending application 10/802,881 is that Claims 16-19 of copending application 10/802,881 further recite entry number information of the additional audio information. However, it is noted that elimination a part is obvious to one of ordinary skill in the art. Therefore, it would have been obvious to one of ordinary skill in the art to modify Claims 16-19 of copending application 10/802,881 by eliminating entry information from Claims 16-19 of copending application 10/802,881 1-3 to produce claims 16-19 of the present application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
